Members met and looked at the area in question and agreed that as the concrete base was already in place that this would remain the site for the skateboard ramp.

Ben has put forward his own design and this will be made into an architects drawing.

Mrs Wells email was circulated, and its contents noted, and any monies collected could be used for extra play park equipment in the designated playground area.

It was agreed that Cllr Latham would pursue funding through 106 monies.

The clerk will pursue the design and investigate whether the designers would be happy to work up Ben's design.

Cllr Wakem will investigate the concrete situation with Plymcrete.
