Dear Householder

Calstock Environment Agency Works

My name is Adam Duncan and I work for Land & Water Services Ltd. Land & Water are an approved framework contractor for the Environment Agency. We are soon due to complete the Calstock Flood Defence Improvement and Habitat Creation Scheme works for the Environment Agency as planned.

The first phase of our de-mobilisation is due 10/08/20 now the main works are complete this will involve moving some of the bigger plant up to the unloading/loading point at the junction by the railway track at the top of Sands lane. The plant will have to be transported along Commercial road and Sands Lane which will unfortunately mean parking restrictions during this time. Traffic cones for no parking will be put out the morning of 10/08/20 in the required areas needed, please can we ask that you adhere to the parking restrictions during our operations to allow the free flow of traffic. This should minimise any disruption caused from our operations. The cones will be removed once as soon as possible once the plant has left site. Thank you in advance for your cooperation in this matter. We will still be on site carrying out minor works and monitoring going forward.

I will be the contact for the duration of the works please see my contact details below, so if you do have any queries or concerns please do not hesitate to contact me so that we can ensure that these are addressed at the earliest opportunity.

Yours sincerely

Adam Duncan
